

LIFE REACH

Disciple-Making Team

Process

The following are the steps to take in order to become a CORE4 Certified Disciple-Maker Team Member!

1. Training: In order to become a Certified Disciple-Maker, you must complete the training videos. These videos will train you how to disciple someone through the CORE4 (*Daily Life Journal, Stepping into the Kingdom, Following Jesus and Empowered*).
2. Application: Once you've completed the training videos, you must fill out the application.
3. Interview: Once you have completed the training videos and the application, you will have a short interview with a Certified Disciple-Maker who will make sure you've completed the training and feel ready to take someone through the CORE4.
4. Observation: The final step in training is to sit in on another more experienced Certified Disciple-Maker's discipleship meeting to observe the process in action.
5. Point Person: Once you've completed the training videos, application, interview and observation, as a member of the Disciple-Making Team you will become a "Point Person" for someone's journey through the CORE4. This means you will help to oversee someone's engagement with and completion of the CORE4 over the span of approximately 12-18 months. You do not need to be the only person taking someone through their CORE4 process, but you would be the one to identify other Disciple-Making Team members who can partner with you in the disciple-making process.
